The power of community collaboration

Learn more about Richard Glaser's perception of Composers Crossing in his Rochester Beacon article: "Upon reflection, I realize that I was attempting to demonstrate how a small group of people with a love and passion for Rochester can shape its future. Citizens delegating their decision making and vision setting is an unfortunate loss of opportunity. We have agency and the power to effect change. The strength of a small a group, working collaboratively and with purity of purpose, should never be underestimated."

Ultimately, all of them agreed to transfer their waterfront rights to the city. 'I think local government might take a lesson from this,' Euclid Councilmember Daryl Langman told me last year. 'Treat your residents as equals and offer them a fair deal. Things get done much more quickly that way.'"
